

Nuts, Dried Fruit & Trail Mix

Yamato

Outstanding Performance & Flexibility

- Handle a variety of sizes from small frac-packs, “tube nut”, and vend packs to bulk packages.
- Scales integrate with pre-made bag, tray, cup, tub, jar and bowl lines as well as VFFS or HFFS for various packaging styles
- Blending software for complete control of individual components and total package weight.
- Single, twin or multiple point-of-discharge configurations.
- Automatic Feed Control to compensate for product flow rate changes.
- In-feed funnels and gravity feed rings for optimal control of free-flowing product.
- Unique staggered dump system reduces bridging.
- Auto-tuning function allows for automatic adjustments to achieve best results when product or environmental conditions can change.

Outstanding Food Safety

- IP67 model helps you maintain your production sanitation standards.
- Polygon shaped bucket is light and rigid, improving speed and accuracy.
- Fragile handling features for delicate products such as whole cashews and shelled walnuts.
- Yamato products are designed for quick and easy cleaning.
- Minimal downtime for maintenance

Applications

- Peanuts, cashews, and walnuts
- Banana chips, raisins, and cranberries
- Blending (mixed nuts and trail mixes)
- Shelled and unshelled nuts of all types
- Apricots, dates, prunes, figs, and more
- Dehydrated or freeze dried
