

# Poultry

# Yamato

## Functionality & Customization

- Special poultry feed pans prevent large pieces from backing up on feed pans
- Scales integrate with pre-made pouch systems as well as VFFS or HFFS
- Optional counting software for packages sold by piece, count, and weight, such as nuggets
- Auto-feed control for optimum product distribution
- Auto inhibit allows for cleaning on the fly and error recovery without stopping the weigher.
- Staggered dump eliminates bridging in the bagger funnel.
- Programmable auto-tare accounts for product build-up

## Capability & High Standards

- Largest weigh bucket in the industry provides capability to easily handle large leg quarters and full butterflied breasts
- Meets poultry and meat sanitation specification standards
- High-speed weigher for nugget lines

## Applications

- Bone-in and boneless pieces
- Further processed
- IQF
- Fully cooked/chilled
