Yamato

Outstanding Performance & Flexibility

- Increases profits by reducing costly overweight giveaways.
- Individual collating chutes prevent the product from swirling, enabling high speed discharge.
- Auto-tuning functions allow for automatic adjustments to achieve best results when product or environmental conditions can change.
- Improved feeder response with feedback control of the feeder amplitude
- Ultra heavy duty load cell withstands up to 150kg, limiting damage during rough maintenance and cleaning.
- Alarm display and replacement time display for consumable parts allow for a preventative maintenance schedule.
- Customized applications available for handling of gentle products

Outstanding Food Safety

- IP67 model helps you maintain production sanitation standards.
- Yamato scales are designed for quick and easy cleaning.
- Yamato diffusion bonding (YDB) buckets have no space for dust and bacteria propagation on the bonding plane.
- Polygon shaped bucket is light and rigid, improving speed and accuracy.
- 60% less power consumption and less heat generation helps maintain product, condition and limits negative environmental impact.

Applications

- Chips
- Pretzels
- Rice, corn, soy and wheat snacks
- Tortilla Chips
- Popcorn
